## About This Content

This is a sound resource pack features 8-bit sounds. It is one of must-have resource packs; it has a strong resemblance of famous 8-bit game machines and good old arcade game sounds for creating retro style RPG games. Please make this resource pack useful for your creation.

It contains some loop music for scenes such as maps, towns and battles and also the most suitable jingles for scenes of Game Over and/or Mission Clear.

### EasyStep Interview

Interview Progress

### Customizing QuickBooks for your business

Next, we'll customize QuickBooks by turning on features that best meet your business needs. To do this, we'll ask you questions about:

- Your industry and what you sell
- How and when your customers pay you
- How you pay your bills

The features that appear in your custom Home page will be based on your answers.

Not sure what you'll need for your business? Answer the interview questions based on your current needs. You can easily enable additional features later.

Leave... < Back Next >

**Introduction to QuickBooks**

**Specifying Features for Your Business** 32 of 80

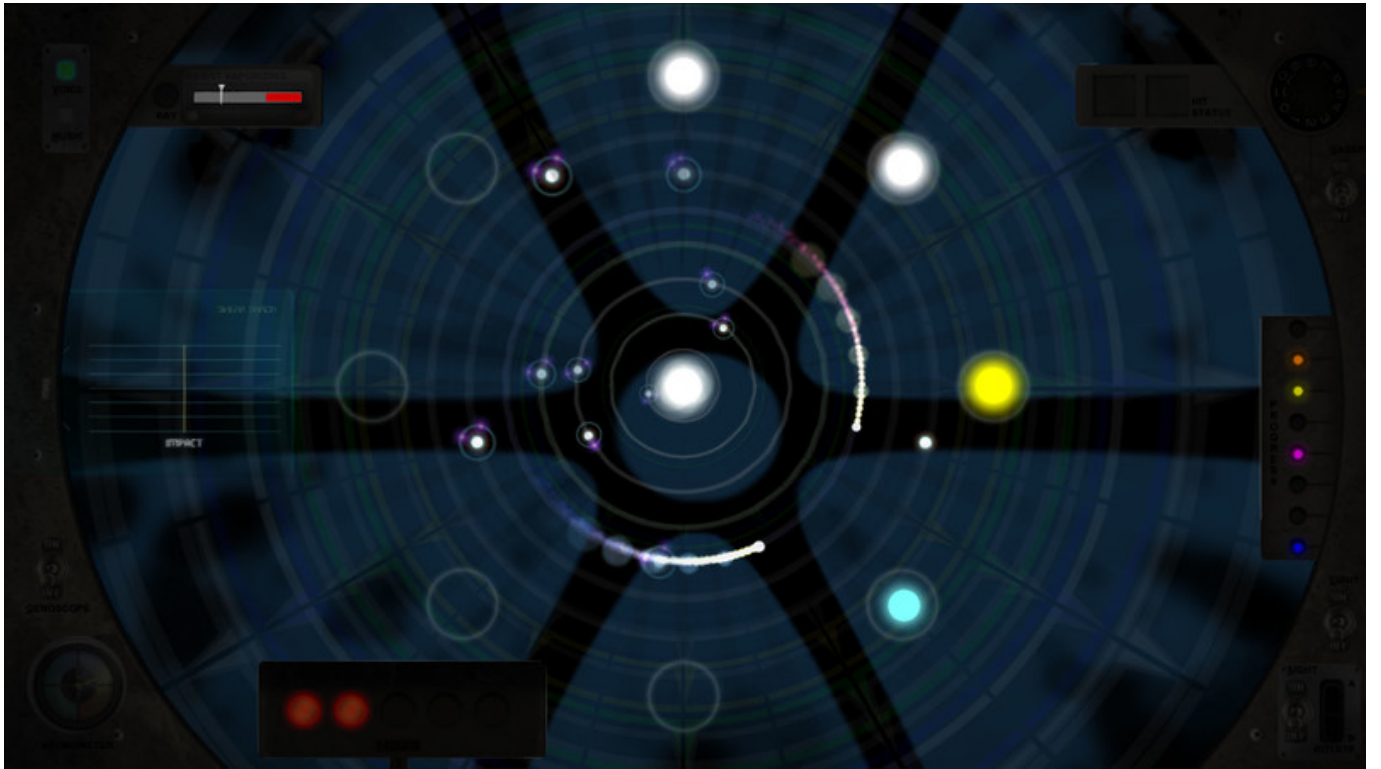

It is helpful to set up your company's features now, rather than later. For example, Cassie's Catering charges sales tax. By specifying this feature now, sales tax options will be automatically placed in the appropriate QuickBooks forms.

The remaining steps in the EasyStep Interview gather the information necessary to select the appropriate features. Let's complete the rest of the interview.
